INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF EMIRATES NBD SECURITIES LLC

Report on the Financial Statements

We have audited the accompanying financial statements of Emirates NBD Securities LLC (the "Company"), which comprise the statement of financial position as at 31 December 2015, and the income statement, statement of comprehensive income, statement of cash flows and statement of changes in equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and in compliance with the applicable provisions of the UAE Federal Law No. (2) of 2015, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2015, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

**INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF
EMIRATES NBD SECURITIES LLC (continued)**

Report on other legal and regulatory requirements

As required by the UAE Federal Law No. (2) of 2015, we report that:

- i) we have obtained all the information and explanations we considered necessary for the purposes of our audit;
- ii) the financial statements have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Law No. (2) of 2015, and the Memorandum of Association of the Company;
- iii) the Company has maintained proper books of account;
- iv) the financial information included in the Directors' report is consistent with the books of account and records of the Company;
- v) investments in shares and stocks are included in note 8 to the financial statements and no new purchases and investments have been made by the Company during the year ended 31 December 2015;
- vi) note 11 reflects the disclosures relating to related party transactions and the terms under which they were conducted;
- vii) based on the information that has been made available to us nothing has come to our attention which causes us to believe that the Company has contravened, during the financial year ended 31 December 2015, any of the applicable provisions of the UAE Federal Law No. (2) of 2015 or of its Memorandum of Association which would materially affect its activities or its financial position as at 31 December 2015; and
- viii) note 15 reflects the social contributions made during the year.

EMIRATES NBD SECURITIES LLC

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2015

1 Legal status and principal activities

Emirates International Securities LLC ("the Company") is a limited liability company incorporated in the Emirate of Dubai on 10 November 2001 under the Federal Law No 8 of 1984 (as amended) applicable to commercial companies. On 8 November 2009, the Company received regulatory approval to merge with NBD Securities LLC ("acquired entity") and changed its name from Emirates International Securities LLC to Emirates NBD Securities LLC.

The Federal Law No. 2 of 2015, concerning Commercial Companies has come into effect from 1 July 2015, replacing the existing Federal Law No. 8 of 1984. The Company is currently assessing the impact of the new law and expects to be fully compliant on or before the end of grace period on 30 June 2016.

On 21 November 2009 (the effective date), NBD Securities LLC transferred all its assets and liabilities to the Company to complete the merger of the two entities.

The share holding pattern in the Company is as follows:

Name of equity holders	Shareholding (%)
Emirates NBD Bank PJSC ("Holding Company")	99%
Emirates Financial Services PSC	1%

Following the merger of Emirates Bank International PJSC and the National Bank of Dubai PJSC during 2007, the Company's ultimate Holding Company is Emirates NBD Bank PJSC, a Company in which the Investment Corporation of Dubai is the majority shareholder.

The principal activity of the Company is to act as an intermediary in dealings in shares, stocks, debentures and securities.

The registered address of the Company is P.O. Box 2923, Dubai, U.A.E.

2 Basis of preparation

(a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and applicable requirements of the laws of the U.A.E.

These financial statements have been approved for issue by the Board of Directors on 28 JAN 2016

(b) Basis of measurement

These financial statements are prepared under the historical cost convention, except for investment securities designated at fair value through profit or loss and available for-sale which are measured at fair value. The methods used to measure fair value are discussed further in note 4.

(c) Functional and presentation currency

These financial statements are presented in UAE Dirhams ("AED"), which is the functional currency of the Company, rounded to the nearest thousand.

2 Basis of preparation (continued)

(d) Use of estimates and judgments

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The critical areas involving a higher degree of judgment or complexity, or areas where assumption and estimates are significant to these financial statements are included in the relevant accounting policies.

3 Significant accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(a) Revenue recognition

Commission income

The Company earns commission income on those transactions in which it acts as an agent. Commission income is recognised on an accrual basis when the right to receive is established.

(b) Property and equipment

Property and equipment is stated at cost less accumulated depreciation and impairment losses, if any. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Gains and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within "other income" in statement of income.

3 Significant accounting policies (continued)

(b) Property and equipment (continued)

Useful lives of property and equipment

The Group's Management determines the estimated useful lives of its property and equipment for calculating depreciation as the policies of the Company are in line with the Group's policies. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates. Estimated useful lives are as below:

Freehold improvements	10 years
Leasehold improvements	7 years
Office equipment	5 years
Computers	4 years

Capital work in progress is stated at cost. When completed, they are transferred to the appropriate property and equipment category and depreciated in accordance with the Company's policies.

(c) Financial instruments

Classification

A financial instrument is any contract that gives rise to both a financial asset for the Company and the financial liability or equity instrument of another party. Non-derivative financial instruments comprise investments in equity securities, trade and other receivables (except prepayments), cash and cash equivalents and other payables.

Available-for-sale financial assets

Available-for-sale assets are financial assets that are not classified as financial assets at fair value through profit or loss, loans and receivables, or held-to-maturity. Available-for-sale financial assets are recognised initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses and foreign currency differences on available-for-sale instruments, are recognised in other comprehensive income and presented in the fair value reserve in equity. When an investment is derecognized or impaired, the gain or loss recognized in statement of other comprehensive income is reclassified to the income statement.

Available-for-sale financial assets comprise equity securities.

3 Significant accounting policies (continued)

(c) Financial instruments (continued)

Classification (continued)

Financial assets at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is classified as held-for-trading or is designated as such on initial recognition. Financial assets are designated as at fair value through profit or loss if the Group manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Group's documented risk management or investment strategy. Attributable transaction costs are recognised in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein, which takes into account any dividend income, are recognised in profit or loss.

Financial assets classified as held-for-trading comprise short-term sovereign debt securities actively managed by the Group's treasury department to address short-term liquidity needs.

Financial assets designated as at fair value through profit or loss comprise equity securities that otherwise would have been classified as available-for-sale.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and at bank with maturities of three months or less from the acquisition date that are subject to insignificant risk of changes in their fair value and are used by the Company for day to day operations. Cash and cash equivalents are carried at amortised cost in the statement of financial position.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from the statement of changes in equity.

Initial Recognition

Financial assets and liabilities are recognised on the statement of financial position when the Company becomes a party to contractual provisions of the instrument. From this date any gains and losses arising from changes in fair value of the assets designated at fair value through profit or loss or available-for-sale assets are recognised.

3 Significant accounting policies (continued)

(c) Financial instruments (continued)

Measurement

A financial asset is recognised initially at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Subsequent to initial recognition, all financial assets at fair value through profit or loss and all available-for-sale assets are measured at fair value, except that any instrument that does not have a quoted market price in an active market and whose fair value cannot be measured reliably is stated at cost, including transaction costs, less impairment allowances.

All other financial assets and non-trading financial liabilities are measured at amortised cost less impairment allowances.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or when the Company has substantially transferred all the risks and rewards of ownership. A financial liability is derecognised when it is extinguished.

(d) Offsetting

Financial assets and liabilities are offset and the net amount is reported on the statement of the financial position only when the Company has a legally enforceable right to set off the recognised amount and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS or IAS or if gains or losses are arising from a group of similar transactions.

(e) Impairment

Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of an asset measured at amortised cost is calculated as the difference between its carrying amount, and the present value of the estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of an available-for-sale financial asset is calculated by reference to its fair value.

3 Significant accounting policies (continued)

(e) Impairment (continued)

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

All impairment losses are recognised in statement of income. Any cumulative loss in respect of an available-for-sale financial asset recognised previously in equity is transferred to statement of income.

Non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

(f) Foreign currencies

Monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date.

(g) Employee benefits

Short-term benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(h) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

3 Significant accounting policies (continued)

(i) Operating leases

Leases of assets under which the lessor effectively retains all the risks and rewards of ownership are classified as operating leases. Payments made under operating leases are recognised in the statement of income on a straight-line basis over the term of the lease.

(j) Dividend income

Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established, which in the case of quoted securities is the ex-dividend date.

(k) Related parties

A party is considered to be related to the Company if:

- (a) the party, directly or indirectly through one or more intermediaries,
 - (i) controls, is controlled by, or is under common control with, the Company;
 - (ii) has an interest in the Company that gives it significant influence over the Company; or
 - (iii) has joint control over the Company;
- (b) the party is an associate;
- (c) the party is a jointly-controlled entity;
- (d) the party is a member of the key management personnel of the Company;
- (e) the party is a close member of the family of any individual referred to in (a) or (d); or
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of the employees of the Company, or of any entity that is a related party of the Company.

(l) Customer loyalty programme

The Company operates a rewards programme which allows customers to accumulate points when they trade with the Company. The points can then be redeemed and credited to customer trading account, subject to a minimum number of points being obtained.

The sale proceeds received are allocated between the customer trades and the points issued, with the proceeds allocated to the points being equal to their fair value. Fair value is determined by applying statistical techniques. The fair value of the points issued is deferred and recognised in revenue when the points are redeemed.

3 Significant accounting policies (continued)

(m) New standards and interpretations not yet effective

Certain new standards, amendments to standards and interpretations are not yet effective for the year ended 31 December 2015, with the Company not opting for early adoption. These have, therefore, not been applied in preparing these financial statements.

Standard	Description	Effective date (early adoption permitted)
Amendments to IAS 1 – Disclosure Initiative	<p>The amendments provide clarifications and narrow-focus improvements on materiality, presentation of primary statements, structure of notes, disclosure of accounting policies, and presentation of OCI arising from equity accounted investments.</p> <p>The amendments are designed to further encourage companies to apply professional judgement in determining what information to disclose and how to structure notes in their financial statements.</p>	1 January 2016
Amendments to IAS 16 and IAS 38 – Clarification of acceptable methods of depreciation and amortization	<p>The amendment clarifies that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate. The IASB has also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of economic benefits embodied in an intangible asset.</p>	1 January 2016
IFRS 15, 'Revenue from contracts with Customers'.	<p>This is the converged standard on revenue recognition. It replaces IAS 11, 'Construction contracts', IAS 18, 'Revenue' and related interpretations.</p> <p>Revenue is recognised when a customer obtains control of a good or service. A customer obtains control when it has the ability to direct the use of and obtain the benefits from the good or service.</p> <p>The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.</p> <p>IFRS 15 also includes a cohesive set of disclosure requirements that will result in an entity providing users of financial statements with comprehensive information about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.</p>	1 January 2018

3 Significant accounting policies (continued)

(m) New standards and interpretations not yet effective (continued)

Standard	Description	Effective date (early adoption permitted)
IFRS 9, 'Financial instruments'	<p>The complete version of IFRS 9 replaces most of the guidance in IAS 39. IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting.</p> <p>(a) Classification and measurement IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets:</p> <ul style="list-style-type: none"> a) amortised cost, b) fair value through other comprehensive income (OCI); and c) fair value through profit and loss. <p>The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset.</p> <p>For financial liabilities, there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value, through profit or loss.</p> <p>(b) Impairment There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. IFRS 9 requires the Group to record expected credit losses on all of its debt securities, loans and receivables, either on a 12-month or lifetime basis.</p> <p>(c) Hedging IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually use for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under IAS 39.</p>	1 January 2018

The Company is in the process of analyzing the impact of IFRS 9. The Company has assessed the impact of other standards, amendments to standards, revisions and interpretations. Based on the assessment, the above standards, amendments to standards, revisions and interpretations have no material impact on the financial statements of the Company as at the reporting date.

(n) Trade and other debtors

All receivables are stated at amortised cost less impairment losses, if any.

(o) Payables

Payables are stated at amortised cost.

4 Determination of fair value

A number of the Company's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities.

Fair values have been determined for measurement and / or disclosure purposes based on the following methods. Where applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

Investment securities

The fair value of financial assets at fair value through profit or loss and available-for-sale financial assets is determined by reference to their quoted bid price at the reporting date. In accordance with IAS 39, all the investments are stated at their fair values. The fair value of investments in recognized financial markets is their quoted price.

Where the investments are not traded in an active market, traded in small volumes, or where there is no quoted market price, a reasonable estimate of fair value is determined by reference to the current market value of another instrument that is substantially the same or is based on discounted cash flow analysis or maintainable earnings models or other reliable valuation methods. Investments whose fair value cannot be reliably measured are carried at cost (being the most recent estimate of fair value) less any impairment losses.

5 Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout in the financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board has authorised the quality assurance department to develop and monitor the Company's risk management policies. The Quality Assurance Manager reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

5 Financial risk management (continued)**Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. The Company has in place group standards; regulations of Securities and Commodities Authority ("SCA"), Abu Dhabi Securities Exchange ("ADX") and the Dubai Financial Market ("DFM"), and policies and procedures dedicated to monitor and manage risk from such activities.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The Company's credit risk is mainly attributable to the trade margin facilities extended to the Company's customers. The exposure to credit risk on these facilities is monitored on an on-going basis by the management.

The Company has a policy in place under which each new customer is analysed individually for creditworthiness before the Company allows these customers to open a trading account with the Company. A trading limit is established for each customer, which represents the maximum open amount of margin facilities that is available to the customer for trading purposes. These individual limits are monitored and reviewed on an on-going basis.

The Company's cash is placed with its holding company and financial institutions of good repute.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2015 AED '000	2014 AED '000
Trade and other debtors	18,079	18,667
Due from Holding Company	328,355	325,371
Bank balances	90,311	90,776
Total	436,745	434,814
	=====	=====

The unsettled trade debtors of the Company as at the reporting date are derived from Gulf Cooperation Council countries ("GCC").

The maximum exposure to credit risk for trade and other debtors at the reporting date by type of customer was:

	2015 AED '000	2014 AED '000
Individuals	18,079	18,667
Corporates	-	-
Total	18,079	18,667
	=====	=====

5 Financial risk management (continued)
Credit risk (continued)
Impairment losses

The ageing of trade receivables at the reporting date was:

	2015 AED '000	2014 AED '000
	-----	-----
Not past due	-	-
Individually Impaired	45,703	46,821
Less: Impairment	(27,624)	(28,154)
	-----	-----
	18,079	18,667
	=====	=====

The movement in the allowance for impairment in respect of trade receivables during the year is referred to in note 9.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company is not significantly exposed to liquidity risks as its primary source of funding is through approved financing arrangements with the Holding Company, which itself is a reputable bank in the UAE.

Further, the Company comprises mainly other payables which are non interest bearing with a maturity of less than six months. The contractual cash flows are not materially different from their carrying amounts.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

All the company's transactions are conducted in AED or US Dollar ("USD"). The AED is currently pegged to the USD and while this continuous to be the case, the Company has no significant exposure to currency risk.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015

5 Financial risk management (continued)**Market risk (continued)**Interest rate risk

The Company has exposure to interest rate risk in relation to the amount due from holding company. The Company pays/receives interest to/from the holding company on intra-group net payables/receivables. All interest bearing financial assets and liabilities are at fixed interest rates.

At the reporting date, the interest profile of the Company's interest bearing financial instruments are as follows:

	2015 AED '000	2014 AED '000
	-----	-----
Fixed rate instruments:		
Fixed deposits	66,306	65,708
	=====	=====
Variable rate instruments:		
Call accounts	17,285	17,154
	=====	=====

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have resulted in the following increases / (decreases) being recognised in the profit and loss account or directly in equity as shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

	Profit and Loss 100 bp increase	100 bp decrease	Equity 100 bp increase	100 bp decrease
	-----	-----	-----	-----
31 December 2015				
Financial instruments	173	(173)	-	-
	=====	=====	=====	=====
31 December 2014				
Financial instruments	172	(172)	-	-
	=====	=====	=====	=====

Equity price risk

Equity price risk arises from investment securities of the Company. Exposure to price risk is monitored by senior management on an ongoing basis to assess the impact of changes in market conditions. Investment securities are managed on a fair value basis.

The amounts mentioned in the table below reflect an equal but opposite potential effect on profit before tax and equity based on an assumed 5% strengthening or weakening in prices, with all other variables held constant:

5 Financial risk management (continued)
Market risk (continued)
Equity price risk (continued)

	31 December 2015			31 December 2014		
	Total AED '000	Effect on profit AED '000	Effect on equity AED '000	Total AED '000	Effect on profit AED '000	Effect on equity AED '000
Effect of change in equity price by 5%						
Financial assets available- for- sale	6,072		304	9,922	-	496
	=====	=====	=====	=====	=====	=====

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior.

To mitigate the operational risk, the Company has obtained fidelity and indemnity insurance cover against possible errors from its brokers while executing customers' orders for trade of securities in stock markets.

6 Capital management

The Company's capital management approach is driven by strategy and organizational requirements, taking into account the commercial environment in which it operates. The Company's capital management takes into account assets growth and the optimal amount and mix of capital required to support planned business growth.

Regulatory Capital

The Company is regulated by SCA, who sets and monitors the capital requirements for the Company. As per new SCA regulation No. 27 of 2014 concerning brokerage in securities, the minimum paid up capital for a brokerage company (Trading and Clearing Member) must not be less than AED 10,000 K (2014: AED 10,000 K). The Company has complied with all externally imposed capital requirements throughout the period. There were no changes in the Company's approach to capital management during the year.

EMIRATES NBD SECURITIES LLC**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015****8 Investment securities**

These comprise the following:

	2015 AED '000	2014 AED '000
	-----	-----
Equity securities:		
Non-Current:		
Available-for-sale (refer note below)	6,334	10,184
	=====	=====

Included in available for sale are:

- a) AED 6,072 K (31 December 2014: AED 9,922 K) representing 4,936,337 shares in Dubai Financial Market ("DFM"). The Company in 2006 acquired the shares relating to DFM's IPO as per the allocation set by DFM for brokerage companies.
- b) AED 198 K (31 December 2014: AED 198 K) representing 1% equity interest in Egyptian Company for Electronic System Development ("Network International Egypt (NI-Egypt) (S.A.E)"). The remaining 99% equity interest in NPC is collectively owned by Network International LLC and Emirates Financial Services PSC, who are a joint venture / subsidiary, respectively, of the Holding Company.

The Company has not made any additional investments in investment securities during the year 2015 (2014: AED Nil).

9 Trade and other debtors

Trade and other debtors include the following:

- The net balance of trades which have been executed with the market but have yet to be settled. Settlement periods for the Dubai Financial Market (DFM) and Abu Dhabi Securities Exchange (ADX) are T+2. Customer trades are settled through their respective investment accounts that exist with the Holding Company.
- Receivables from Margin Trading (MT), which the Company previously engaged in. During 2011, SCA issued a circular that brokerage companies cannot carry out MT. The company has formulated a strategy for transferring margin trading accounts to its Holding Company. For the year ended 31 December 2015, no accounts were transferred to Holding Company (full year 2014 no accounts were transferred). Receivable from MT as of 31 December 2015 was AED 46 million (2014: AED 47 million).

The Company placed an amount of USD 517 K with DGCX as cash collateral money on 26 August 2013.

11 Related party transactions

The Company, in the normal course of business, carries out transactions with entities that fall within the definition of a related party contained in International Accounting Standard 24 (2009). The transactions and balances with the related parties, other than those as disclosed elsewhere in the financial statements, are as follows:

The total amount of compensation paid to directors and key management personnel during the year is as follows:

	2015 AED '000	2014 AED '000
	-----	-----
Short term employee benefits	2,184	1,800
Post employment benefits	100	106
	=====	=====

EMIRATES NBD SECURITIES LLC**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015****11 Related party transactions (continued)**

Key management personnel are those persons, including non-executive directors, having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly.

	2015 AED '000	2014 AED '000
Due from Holding Company	328,355	325,371
Bank balances held with Holding Company	90,263	90,730

A number of functions are centralized and the costs of these are borne by the Holding Company and not recharged to the Company.

The transactions and balances with holding company and related parties, other than as disclosed elsewhere in the financial statements, are as follows:

	2015 AED '000	2014 AED '000
Commission income from related parties (refer note 11.1)	1,386	4,794
Interest income from Holding Company on fixed deposits and call account	731	819
Insurance premium paid to associate of Holding Company	103	375

11.1 Commission income from related parties in 2015 comprised:

	Trade value AED '000	Comm. income AED'000
Subsidiary of the Holding Company	108,063	65
Holding Company	2,437,438	961
Associate of the Holding Company	47,688	48
Director of the Holding Company	586	1
	2,593,775	1,075

11 Related party transactions (continued)

The Company has obtained a guarantee for Nasdaq worth AED 5,509 K from Mashreq Bank. There is a mutual agreement between the Holding Company and Mashreq Bank whereby they provide guarantees for each others' brokerage entity to Nasdaq, at no charge to each other.

12 Cash and bank balances

	2015 AED '000	2014 AED '000
Cash in hand	5	5
Current account	19,818	19,533
Bank deposit (Maturity within three months)	21,865	21,693
Cash and cash equivalents	41,688	41,231
Bank Deposit (Maturity after three months)	44,441	44,015
Client money (12.1)	4,182	5,535
	90,311	90,781
	=====	=====

- 12.1** In accordance with the regulations issued by the Emirates Securities and Commodities Authority ("ESCA") the Company maintains separate bank accounts for advances received from its customers ("clients' money"). The clients' money is not available to the Company other than to settle transactions executed on behalf of the customers maintaining deposits with the Company.

13 Other payables

The company has implemented a loyalty program for customers in 2013. The program was designed to pay incentive "Points" to eligible customers based on customers trading volume per month. The total points are accrued each month and will be valid for redemption within 24 months. Points are credited to customer's trading account upon request. Each point has an equivalent value of AED 1. The total loyalty points accrued, net of redemption included in other payables, as at 31 Dec 2015 is AED 4,326 K. (2014: AED 5,051 K).

14 Share capital and reserves

	2015 AED '000	2014 AED '000
	-----	-----
Authorised, issued and fully paid up:		
<i>36,000 shares of AED 1,000 each</i>	36,000	36,000
	=====	=====

Capital contribution reserve

The capital contribution reserve represents the share capital of the acquired entity.

Statutory reserve

In accordance with clause 22 of the Company's Memorandum and Articles of Association and article 255 of the UAE Federal Commercial Companies Law, a minimum of 10% of the net profit for the period is allocated to a non-distributable statutory reserve. Such allocations have ceased as the statutory reserve now equals half of the paid up equity capital.

Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognised or impaired.

15 Administrative and general expenses

	2015 AED '000	2014 AED '000
	-----	-----
Staff costs	13,717	8,765
Occupancy costs	672	530
Depreciation	621	722
Others	9,099	7,785

Total	24,109	17,802
	=====	=====

The number of employees at 31 December 2015 was 44 (2014: 44).

The social contributions (including donations and charity) made during the year amount to AED Nil (2014: AED Nil).

16 Other income

	2015 AED '000	2014 AED '000
	-----	-----
Dividend income	346	247
Other operating income	65	43
	-----	-----
	411	290
	=====	=====

EMIRATES NBD SECURITIES LLC**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2015****17 Lease commitments**

At 31 December, the Company's non-cancellable operating lease rentals are payable as follows:

	2015 AED '000	2014 AED '000
	-----	-----
Less than one year	307	274
	=====	=====

The company leases a number of office premises under operating leases usually with a lease period of 1 year, renewable annually, for which the lease rentals are payable in advance.

18 Contingent liabilities

	2015 AED '000	2014 AED '000
	-----	-----
Letters of guarantee (Issued by the Holding Company in favor of DFM and ADX)	267,000	446,000
	=====	=====
Letters of guarantee (Issued by Mashreq Bank in favor of Nasdaq Dubai)	5,509	5,509
	=====	=====
Letters of guarantee (Issued by the Holding Company in favor of DGCX)	3,673	3,673
	=====	=====

19 Fair value measurement principles***Fair values*****Fair values versus carrying amounts**

The fair values of the financial instruments are not materially different from their carrying amounts.

19 Fair value measurement principles (continued)
Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

In AED 000	Level1	Level 2	Level 3	Total
	-----	-----	-----	-----
31 December 2015				
Available-for-sale financial assets	6,072	-	262	6,334
	=====	=====	=====	=====
31 December 2014				
Available-for-sale financial assets	9,922	-	262	10,184
	=====	=====	=====	=====

The fair value of financial instruments classified as level 3 are, in certain circumstances, measured using valuation techniques that incorporate assumptions that are not evidenced by the prices from observable current market transactions in the same instrument and are not based on observable market data. The Company employs valuation techniques, depending on the instrument type and available market data. For example, in the absence of active market, an investment's fair value is estimated on the basis of an analysis of the investee's financial position and results, risk profile and other factors. Favourable and unfavourable changes in the value of financial instruments are determined on the basis of changes in the value of the instruments as a result of varying the levels of the unobservable parameters, quantification of which is judgemental.

For fair value measurement in level 3, a change of 10% in the fair value of the investment would have an equal but opposite potential effect of AED 26 K (2014: 26 K) of the statement of comprehensive income.
