REPORT ON REVIEW OF CONDENSED INTERIM FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF EMIRATES NBD SECURITIES LLC

Introduction

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with International Financial Reporting Standard IAS 34, *Interim Financial Reporting ("IAS 34")*. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with IAS 34.

Other Matter

The condensed interim financial statements of the company as of 31 March 2024 were reviewed by another auditor whose report dated 13 May 2024 expressed an unmodified conclusion on those condensed interim financial statements. Also, the consolidated financial statements as of 31 December 2024, were audited by another auditor whose report dated 20 February 2025 expressed an unmodified opinion on those financial statements.

12 FAIR VALUE MEASUREMENT PRINCIPLES

Fair values

Fair values versus carrying amounts

The fair values of the financial instruments are not materially different from their carrying amounts.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: guoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

12 FAIR VALUE MEASUREMENT PRINCIPLES (continued)

The fair value of financial instruments classified as level 3 are, in certain circumstances, measured using valuation techniques that incorporate assumptions that are not evidenced by the prices from observable current market transactions in the same instrument and are not based on observable market data. The Company employs valuation techniques, depending on the instrument type and available market data. For example, in the absence of an active market, an investment's fair value is estimated on the basis of an analysis of the investee's financial position and results, risk profile and other factors. Favorable and unfavorable changes in the value of financial instruments are determined on the basis of changes in the value of the instruments as a result of varying the levels of the unobservable parameters, quantification of which is judgmental.
